Subject: MACT revised text
Attachments: Case-by-Case MACT 2018-0823 draft revised intro.pdf

Melanie,

I hope you are doing well. Based on comments you provided when the two of us met on July 19, we drafted a revised version of the Case-by-Case MACT application text. If the additional content is beneficial for EPA's technical review, we can provide the information in a format that works best for EPA and MARAD (ie, as an updated MACT application, a letter, a memo, or other format). As you will see, the primary additions are located in the Introduction Section. Also, if providing the narrative content in Word format would be helpful, we can do that.

We recognize we also need to provide information on additional topics to support your technical review for the MACT application (and we are working on them). We also understand a letter formally requesting additional information will be distributed shortly based on internal EPA deadlines.

If you have any questions, comments, or suggestions do not hesitate contacting me (972.419.5679) or Denise Rogers (832.203.6493).

Regards,
Brian

Subject: Response to MACT questions on emissions calcs, lightering and RACT

Melanie,

Please find attached responses to several of the questions you raised on the Case by Case MACT Permit Application. We are also preparing information for your other questions for the MACT application. We encourage any feedback you have since it could help with our response to the incompleteness letter for the PSD Permit Application.

Regards,
Brian
